

Name : _____

Herbivores, Carnivores, and Omnivores

Animals eat different types of foods. Based on the type of food they eat, animals can be grouped into herbivores, carnivores, and omnivores.

HERBIVORES

Animals that eat plants are called herbivores. Examples: deer, horses, cows, buffaloes, and camels.

CARNIVORES

Animals that eat the flesh of other animals are called carnivores. Examples: tigers, lions, wolves, snakes, hawks, and eagles.

OMNIVORES

Animals that eat both plants and the flesh of other animals are called omnivores. Examples: foxes, bears, and human beings.
