Calculate the rise and run between any two coordinates to find the slope of each line. (Coordinates may vary)

1) Slope = $-\frac{2}{3}$
2) Slope = $-\frac{1}{7}$
3) Slope = $2$
4) Slope = $\frac{1}{2}$
7) Slope = $-\frac{6}{5}$
8) Slope = $\frac{8}{3}$
9) Slope = $-1$
