## Perimeter of a Square

T2S2

A) Find the perimeter of each square for the given side length.

1) side length =  $3\frac{4}{9}$  in

2) side length =  $\frac{2}{9}$  yd

Perimeter = \_\_\_\_\_

Perimeter = \_\_\_\_\_

3) side length =  $\frac{13}{4}$  yd

4) side length =  $1\frac{8}{11}$  ft

Perimeter = \_\_\_\_\_

B) Find the perimeter

5)

$\frac{12}{5}$  ft

Perimeter = \_\_\_\_\_

7)

$\frac{15}{17}$  in

Perimeter = \_\_\_\_\_

Perimeter = \_\_\_\_\_
