- 13) Bob went to the store and bought 15 coupons. How many coupons does he have left if he uses 8?

How many coupons does he have left if he uses 8?

- 14) Jude distributed 44 balloons among his friends. If 2 balloons popped during a balloon race, how many balloons remain?

Answer key**Subtraction**

No regrouping-horizontal: T2S1

1) $25 - 2 = 23$

2) $47 - 4 = 43$

3) $89 - 6 = 83$

4) $69 - 8 = 61$

5) $10 - 0 = 10$

6) $37 - 3 = 34$

7) $97 - 5 = 92$

15 - 1 = 14

10) $38 - 1 = 37$

48 - 7 = 41
