Answer key**2-Digit Subtraction**

No regrouping-horizontal: T2S2

1) $98 - 84 = 14$ 2) $14 - 10 = 4$ 3) $89 - 43 = 46$

4) $26 - 11 = 15$ 5) $87 - 74 = 13$ 6) $62 - 21 = 41$

7) $77 - 65 =$

$96 - 94 = 2$

10) $45 - 20 =$

$39 - 13 = 26$

13) Ella had a collection of 80 hair bows. She gave 37 of them to her cousins.

How many hair bows does she have left?

She has 43 hair bows left

14) Forty-seven boxes of chocolates were up for sale at a bake fair. If 15 boxes remain, how many boxes of chocolates were sold?

32 boxes of chocolate were sold
