

Surface Area - Counting Squares

 = 1 ft²

Draw a rectangular prism for each set of dimensions, and find its surface area.

1) $l = 4 \text{ ft}, w = 1 \text{ ft}, h = 4 \text{ ft}$

2) $l = 8 \text{ ft}, w = 3 \text{ ft}, h = 1 \text{ ft}$

Surface Area = _____

PREVIEW

3) $l = 4 \text{ ft}, w = 4 \text{ ft}, h =$

$t, h = 2 \text{ ft}$

Surface Area = _____
