Reflection of Shapes

Write a rule to describe each reflection.

1) 

2) 

3) 

4) 

5) 

6)

Write a rule to describe each reflection.

1) \( \text{Reflection across the line } x = 2 \)

2) \( \text{Reflection across the line } y = -1 \)

3) \( \text{Reflection across the line } y = 3 \)

4) \( \text{Reflection across the y-axis} \)

5) \( \text{Reflection across the line } x = 1 \)

6) \( \text{Reflection across the line } y = x \)
