

Name : _____

Area of an Isosceles Triangle

T2S2

Find the area of each isosceles triangle. Round your answer to two decimal places.

1)

Area = _____

2)

Area = _____

3)

4)

Area = _____

Area = _____

7) An isosceles triangle has a base length of 11.6 inches, find the area.

Length of the base is _____

8) The base of an isosceles triangle measures 10.5 yards. What is the area of the isosceles triangle, if the two equal sides measure 5.7 yards each?

Name : _____

Answer key

Area of an Isosceles Triangle

T2S2

Find the area of each isosceles triangle. Round your answer to two decimal places.

1)

Area = 24.76 in²

2)

Area = 161.11 yd²

3)

4)

Area = 46.96 ft²
