Area = _____

7) The base of an isosceles triangle, if the two equal sides measure 57

isosceles triangle, if the two

8) The length of each of the two equal sides of an isosceles triangle is 28 yards. Determine the area, if the base measures 20 yards.

Name : _____

Answer key

Area of an Isosceles Triangle

T2S1

Find the area of each isosceles triangle. Round your answer to two decimal places.

1)

Area = 75.99 in²

2)

3)

Area = 25.46 yd²

4)

Area = 399.41 ft²
