

Name : _____

Solve - Cofunction Identities

Degrees: S3

Solve using cofunction identities.

1) $\csc(9^\circ + 9x) = \sec 27^\circ$

2) $\tan 3x = \cot\left(\frac{22^\circ + x}{4}\right)$

3) $\sec 4x = \csc$

PREVIEW

$= \sin(3x - 19^\circ)$

Gain complete access to the largest
collection of worksheets in all subjects!

5) $\sin \frac{6x}{5} = \csc$
