A survey was conducted in Westpoint to find the number of pet owners in the neighborhood. As per the survey -
- 31 families have only dogs as pets;
- 34 families have only cats as pets;
- 15 families keep only fish as pets;
- 22 families have pet cats and dogs but not fish;
- 7 families keep fish and also have pet cats but not dogs;
- 12 families keep fish and also have pet dogs but not cats;
- 10 families keep cats, dogs, and fish as pets; and
- 6 families do not keep any pets.

a) How many families have either pet cats or dogs?

b) Write down the number of families who keep pet dogs.

c) How many families in Westpoint have neither pet dogs nor pet cats?

d) Find the number of families who have pet cats.

e) Write down the number of families that keep fish as pets in their homes.

f) Find the number of families in the Westpoint neighborhood that keep at least one of the three types of pets in their homes.

g) How many families keep both, fish and pet cats in their homes?

h) How many families keep at least two types of pets in their homes?
