

Name : \_\_\_\_\_

# Snails

by Katie Clark

The snail is very slow. The snail also has mucous. It moves very slowly.

The snail has one big foot. The snail has a shell. The snail moves

The hard shell protects the soft body of the snail. The shell grows bigger as the snail gets older. The shell looks like a swirl.

The snail eats leaves. It eats moss and dirt, too. This can help the plants. It also helps the soil.

Snails make a tasty treat for other animals. Birds, bugs, and toads eat snails.

Name : \_\_\_\_\_
