

Bar Graph - Pizza Toppings

People love "Good Times Pizzeria" for the six different toppings that they make pizzas with. The store asks their customers about their favorite toppings and records the results in a bar graph. Use the bar graph to answer the questions.

- Which is the most popular topping? _____
- How many customers have chosen either tomato or pepper? _____
- If 75 more customers preferred bacon, which topping would be more sought after: bacon or onion? _____
- Which topping has got 250 votes? _____
- List the toppings in order from the most popular to the least popular.
