

Name : _____

Days and Hours

Mixed review: L1S1

Example :

144 hours = _____ days

24 hours = 1 day

$$144 \text{ hours} = \frac{144 \text{ hours}}{24 \text{ hours}} = \mathbf{6} \text{ days}$$

6 days

$$\begin{array}{r} 24 \overline{) 144} \\ \underline{144} \\ 0 \end{array}$$

6 days = _____ hours

1 day = 24 hours

6 days = 6 x 24 hours

= **144** hours

Convert the following hours to days

Work space

1) 96 hours = _____ days

2) 204 hours = _____

3) 120 hours = _____

4) 216 hours = _____

5) 324 hours = _____
