

Name : _____

Make and Interpret

DS3

A meteorologist records the rainfall received (in inches) by a city in the month of September. He tabulates the data for nine of the wettest days experienced during the month. Read the data, make a line plot, and answer the following questions.

14	21	25	18	15	18	15	25	17	19
18	17	15	14	19	13	17	21	15	18
17	15	14	23	17	15	18	19	14	15
