

Name : _____

Area of a Rectangle

L2S3

Round your answer to two decimal places.

- 1) Yvonne grows vegetables in her rectangle-shaped kitchen garden of size 11.5 feet \times 6.5 feet. Determine the area of the garden in square inches.

- 2) Timothy leases a rectangular space in a shopping mall to sell pretzels. The leased space is 11.9 feet long and 8.5 feet wide. If the cost per square foot is \$85.05, how much rent does Timothy pay?

- 3) Mr. Rowan buys a rectangular plot of land that is 356 yards long and 220 yards wide. What is the area of the farm in square yards?

- 4) The outdoor section of a park is 150 feet long and 22.3 feet wide. How much area does the section cover if the cost per square foot is \$13.50?

- 5) The bulletin board in Ms. Olsen's classroom is 74.4 inches long and 46.8 inches wide. If she covers the entire board with red paper, how much paper does Ms. Olsen require? Write the answer in square feet.
