

Double Line Graph - Summer Earnings

Daniel and Ray took up a job during their summer holidays. Their earnings (in dollars) for the first six days are given below. Analyze the data carefully, make an appropriate scale and draw a double line graph. Also label the axes and write a title for the graph.

Day	Daniel's Earnings (\$)	Ray's Earnings (\$)
Day 1	60	25
Day 2	45	35
Day 3		
Day 4		
Day 5		
Day 6
