

## Double Line Graph - Test Scores

John and Debra are in grade 4. The average scores in each test are summarized below and plotted as a line graph. Analyze the scores carefully and answer the questions.

- Who scored the most in test 4? \_\_\_\_\_
- What is John's average score in test 2? \_\_\_\_\_
- How much less did Debra score in test 5 compared to test 6? \_\_\_\_\_
- What is the maximum average score obtained by John? \_\_\_\_\_
- How much did John and Debra score in test 4 altogether? \_\_\_\_\_
