

Name: _____

Sheet 5

Perimeter of a Parallelogram

Find the indicated side lengths of each parallelogram from the given perimeter.

1)

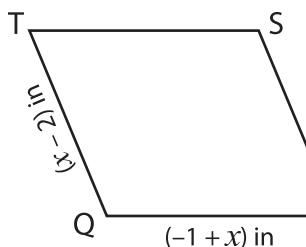

$$\text{Perimeter} = 20 \text{ ft}$$

$$x = \underline{\hspace{2cm}}$$

$$DE = \underline{\hspace{2cm}}$$

$$GD = \underline{\hspace{2cm}}$$

4)

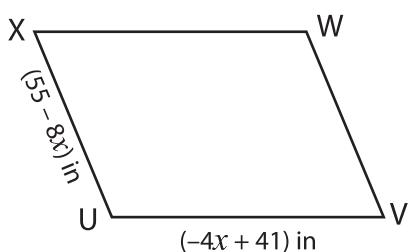

$$\text{Perimeter} = 86 \text{ in}$$

$$x = \underline{\hspace{2cm}}$$

$$ST = \underline{\hspace{2cm}}$$

$$RS = \underline{\hspace{2cm}}$$

2)

- 3)
-
- $$\text{Perimeter} = 104 \text{ yd}$$
- $$x = \underline{\hspace{2cm}}$$
- $$EF = \underline{\hspace{2cm}}$$
- $$FC = \underline{\hspace{2cm}}$$
