

Name : _____

Constant of Proportionality

Sheet 2

Find the constant of proportionality(k) for each linear relationship.

1) $\frac{32y}{20x} - 1 = 0$

2) $-91x + 13y = 0$

3) $56x = 7y$

4) $\frac{64y}{x} = 16$

5) $81y = 36x$

7) $\frac{4y}{x} = 48$

9) $38y - 2x = 0$

10) $28x = 14y$
