

Name : _____

Constant of Proportionality

Sheet 5

Find the constant of proportionality(k) for each linear relationship.

1) $14y - 84x = 0$

2) $91y = 26x$

3) $\frac{24y}{x} = 15$

4) $\frac{12y}{26} - 1 = 0$

5) $8x = 8y$

7) $\frac{5y}{85x} = 1$

9) $12y = 144x$

10) $\frac{4y}{x} = 76$
