

Name : _____

Surface Area - Cylinder

A) Find the indicated measure. (use $\pi = 3.14$)

1) Surface Area = 100.48 yd^2

2) Surface Area = $1,055.04 \text{ in}^2$

3) Surface Area = 785 ft^2

diameter = _____

height = _____

B) Find the indicated

4) Surface Area = 753.6 ft^2 ,

Gain complete access to the largest collection of worksheets in all subjects!

radius = 4 in , height = 12 in

height = _____

6) Surface Area = $1,017.36$

radius = 5 ft , height = 11 ft

height = _____

diameter = _____

8) Find the diameter of a cylinder whose surface area is 113.04 in^2 and height is 17 in .
