Find the measure of the indicated angle in each triangle.

1) \( \angle S = \) ________

2) \( \angle V = \) ________

3) \( \angle S = \) ________

4) \( \angle Y = \) ________

5) \( \angle N = \) ________

6) \( \angle F = \) ________

7) \( \angle X = \) ________

8) \( \angle B = \) ________
