

Bar Graph - Flag Collection

John has a hobby of collecting flags of different countries. The bar graph displays the number of flags collected by him. Use the graph to answer the questions.

- 1) How many fewer Chinese flags does John have than Malaysia? _____
- 2) Which flag does John have the most? _____
- 3) How many more flags of Malaysia should be there so the number of flags of this country in John's collection is the same as the Canadian Flags? _____
- 4) How many flag does John have altogether? _____
- 5) Write the names of the flags in the order that John has them – from the fewest to the greatest number.
