

Line Graph - Campers

The Hill Side School conducts summer camps for students below age 10. The campground host from the school recorded the number of students camping every year on a graph. Read the graph and answer the following.

- 1) On which year did _____ campers? _____
- 2) How many fewer campers were recorded in 2003 than in 2002? _____
- 3) How many campers had camped from 2000 to 2002? _____
- 4) Which year had the minimum number of campers? _____
- 5) In the year 2001, how many campers camped in the campground? _____
