Pictograph - Summer Retreat

Sheet 2

Beat the Heat! The popsicle sale is huge during summer. The data shows the number of popsicles sold by each shop. Use the information to draw the pictograph and answer the questions.

Shop A	Shop B	Shop C	Shop D	Shop E
300	600	420	840	600

- 1) If each popsicle cost \$ 3, how much would shop A earn?
- 2) Name the shops that sold at least 600 popsicles?
- 3) How many more popsicles did shop D sell than shop A?
- 4) How many more popsicles was shop C needed to sell to have equal sales as shop E?
