Commutative Property

Use the numbers and the property to create the equation.

1) 7 and 11 Commutative property of addition: _____	2) 5 and 9 Commutative property of multiplication: _____
3) 13 and 8 Commutative property of multiplication: _____	4) 2 and 14 Commutative property of addition: _____
5) 9 and 7 Commutative property of addition: _____	6) 15 and 6 Commutative property of multiplication: _____
7) 10 and 4 Commutative property of multiplication: _____	8) 5 and 2 Commutative property of addition: _____
9) 8 and 3 Commutative property of multiplication: _____	10) 9 and 5 Commutative property of addition: _____
11) 13 and 2 Commutative property of addition: _____	12) 14 and 6 Commutative property of multiplication: _____
13) 4 and 15 Commutative property of addition: _____	14) 6 and 8 Commutative property of addition: _____
15) 9 and 8 Commutative property of multiplication: _____	16) 3 and 12 Commutative property of addition: _____

Name: _____

Score: _____

Answer key

Commutative Property

1) 7 and 11 Commutative property of addition: $7 + 11 = 11 + 7$	2) 5 and 9 Commutative property of multiplication: $5 \times 9 = 9 \times 5$
3) 13 and 8 Commutative property of multiplication: $13 \times 8 = 8 \times 13$	4) 2 and 14 Commutative property of addition: $2 + 14 = 14 + 2$
5) 9 and 7 Commutative property of addition: $9 + 7 = 7 + 9$	6) 15 and 6 Commutative property of multiplication: $15 \times 6 = 6 \times 15$
7) 10 and 4 Commutative property of multiplication: $10 \times 4 = 4 \times 10$	8) 5 and 2 Commutative property of addition: $5 + 2 = 2 + 5$
9) 8 and 3 Commutative property of multiplication: $8 \times 3 = 3 \times 8$	10) 9 and 5 Commutative property of addition: $9 + 5 = 5 + 9$
11) 13 and 2 Commutative property of addition: $13 + 2 = 2 + 13$	12) 14 and 6 Commutative property of multiplication: $14 \times 6 = 6 \times 14$
13) 4 and 15 Commutative property of addition: $4 + 15 = 15 + 4$	14) 6 and 8 Commutative property of addition: $6 + 8 = 8 + 6$
15) 9 and 8 Commutative property of multiplication: $9 \times 8 = 8 \times 9$	16) 3 and 12 Commutative property of addition: $3 + 12 = 12 + 3$
