Properties of Quadratic Function

Sheet 2

Find the properties of each quadratic function.

1) $f(x) = -5x^2 + 4x$

2) $f(x) = 16x^2 + 24x + 5$

Domain : _____

Domain : _____

Range : _____

Range : _____

 x -intercepts : _____ x -intercepts : _____ y -intercept : _____

: _____

Vertex : _____

: _____

Maximum value : _____

ue : _____

Axis of symmetry : _____

etry : _____

Open up or down : _____

own : _____

3) $f(x) = 4x^2 + 12x - 72$

Domain : _____

: _____

Range : _____

: _____

 x -intercepts : _____

: _____

 y -intercept : _____

: _____

Vertex : _____

: _____

Minimum value : _____

Maximum value : _____

Axis of symmetry : _____

Axis of symmetry : _____

Open up or down : _____
